Specific programs and Certifications

ALRiM: Luxembourg Association for Risk Management (www.alrim.lu)

- ALRiM, the Luxembourg Association for Risk Management, has been dedicated to developing risk management in Luxembourg and internationally since its foundation on July 1, 1997 under the name of “PRiM”
- ALRiM is a non-profit organisation (*association sans but lucratif*), the members of which are professionals with an interest in risk management.
- With the support of its members and its board of directors, ALRiM meets its objective of developing risk management through a variety of activities, including training, organising conferences, publishing relevant documents and consulting

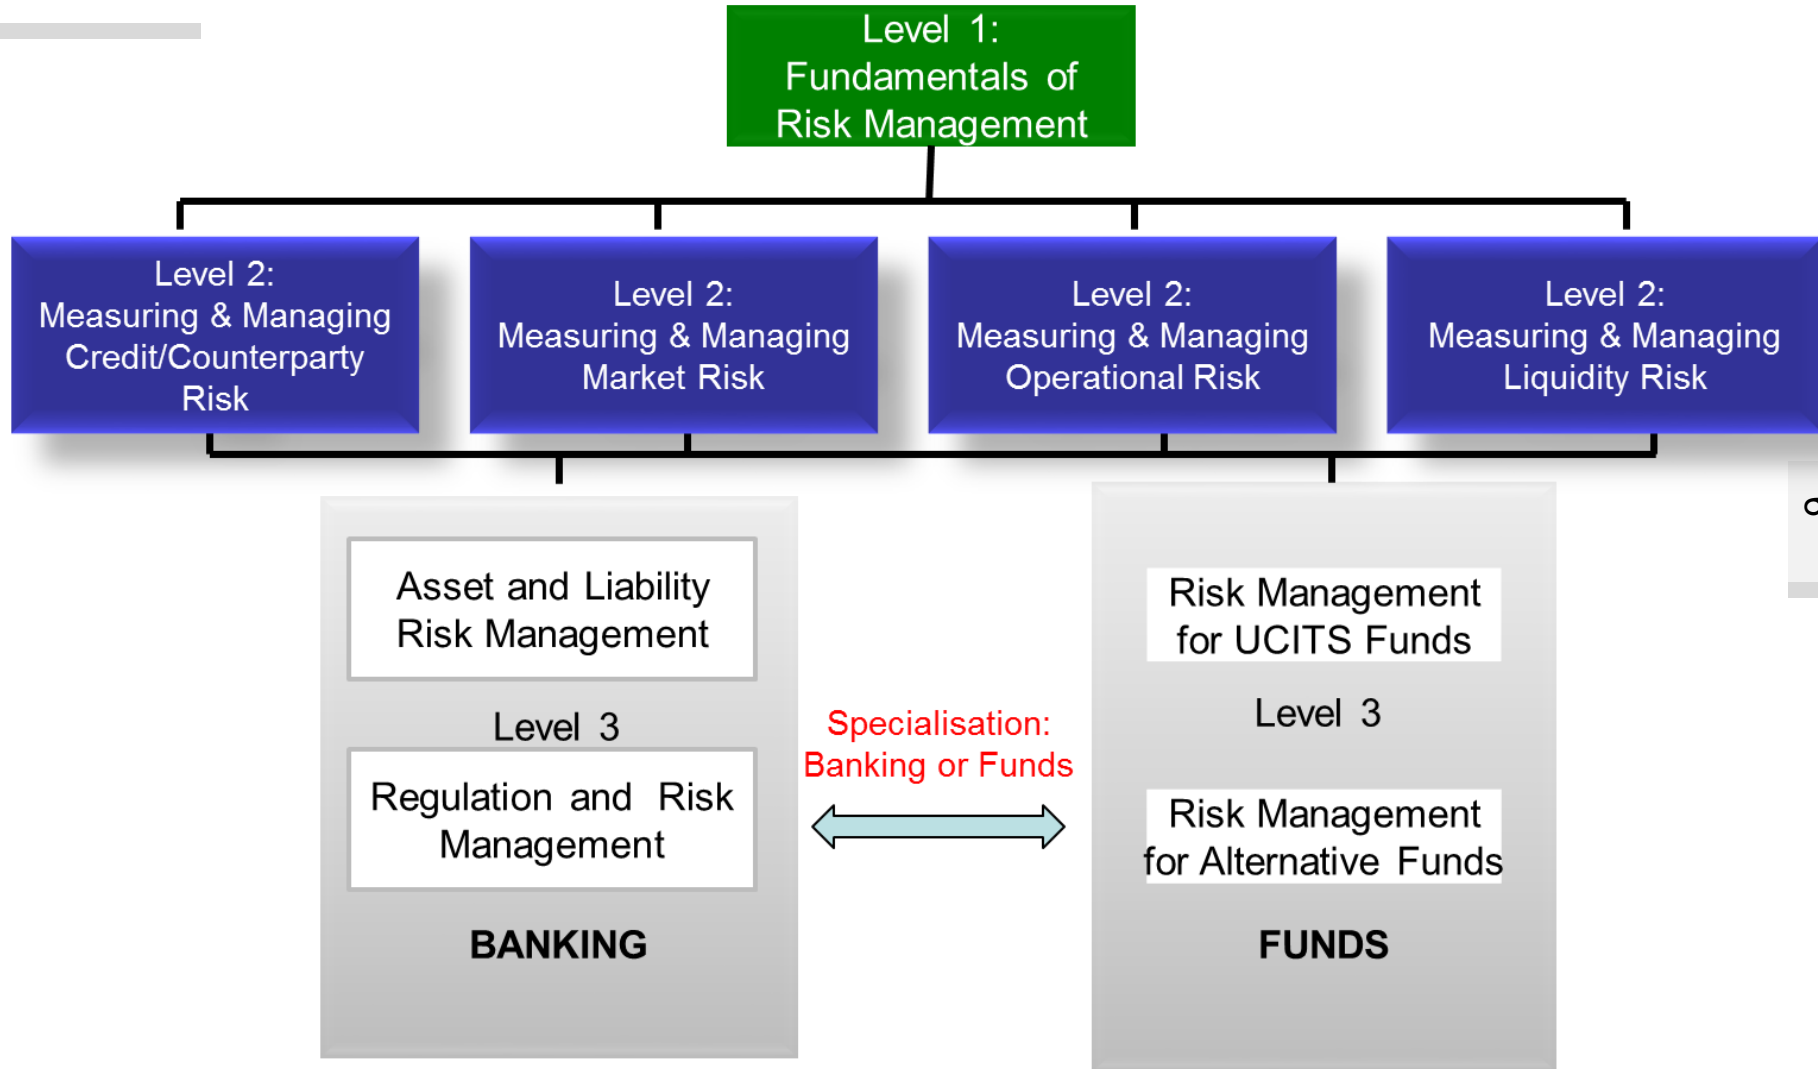

Programme Overview

- In 2011, ALRiM and the House of Training developed a comprehensive training programme in risk management.
- The main characteristics of the programme are:
 - Provides a professional qualification for risk management with a specialisation in either banking or investment funds
 - Based on Luxembourg regulations
 - Courses taught by experts from the corresponding discipline
 - Knowledge and professional competencies of programme participants are evaluated through written examinations on the material covered in each course
- To obtain the certification ***Risk Management Specialist***, candidates must complete 13 days of training in risk management and pass the exam for each course

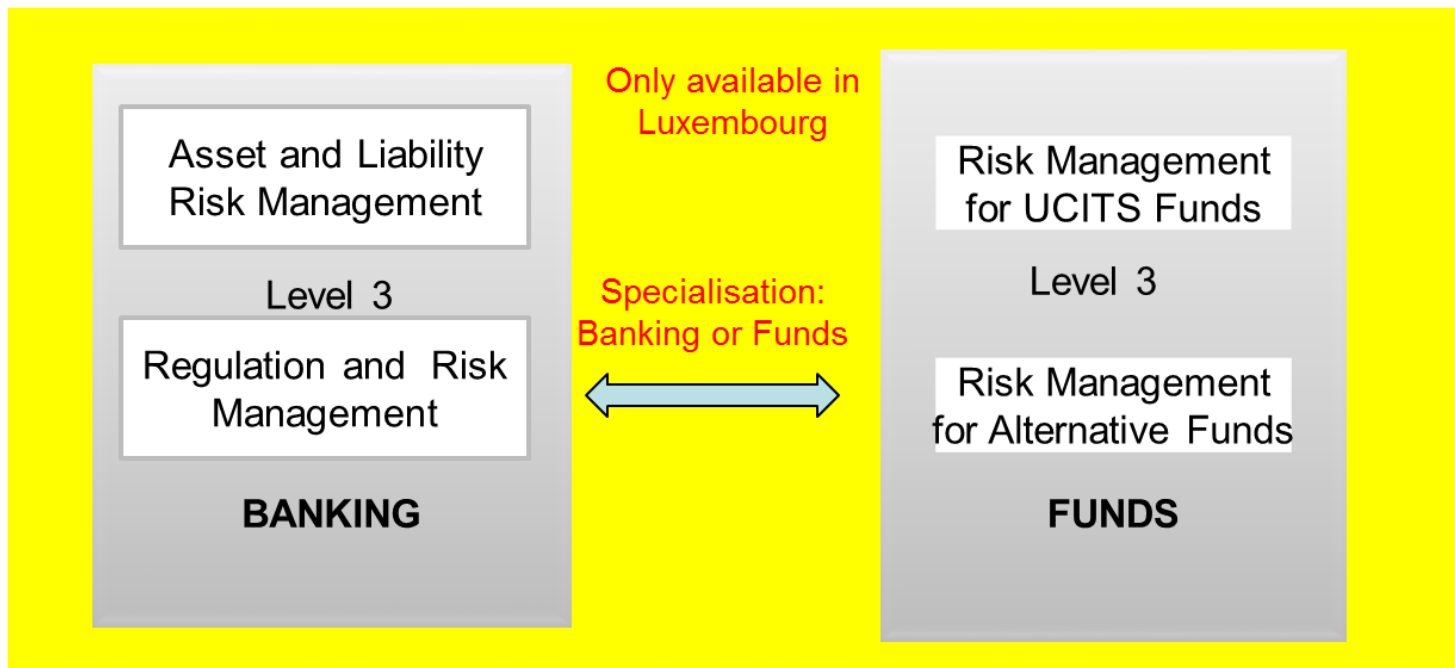

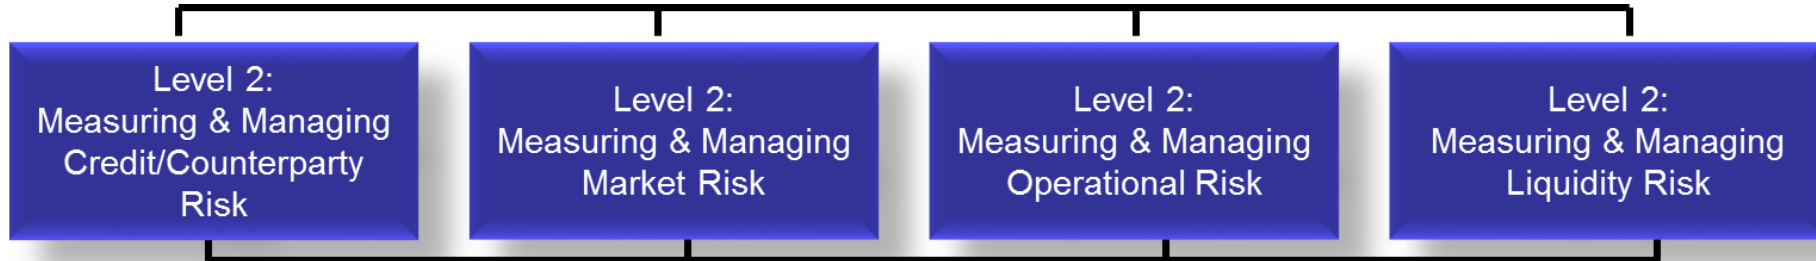

Programme Structure – Luxembourg Full Programme

Programme Structure – International Streamlined Programme

Future Development of the Programme

- New advanced courses in credit risk and operational risk
- Focus on regulatory aspects (e.g., Basel III and IV)
- Blended learning
- Workshops focused on case studies and practical applications
- Wider international programme
- Courses in foreign languages (e.g., French, German, Spanish, Italian)
